

Email Interface

Description

The Email interface is an easy way to interface with the SMS engine. It is mainly used on alert systems that can send only emails. InforuMobile has a dedicated email server that receives those emails and converts them to SMS.

There are 4 different formats that can be used to send SMS:

Format 1

In this format the "From" address is predefined in InforuMobile system. This means that only specific emails allowed sending SMS.

The message that needs to be sent can be written in the subject, in the body or both:

| | |
|---|--|
| <p>Subject</p> <p>From: Admin@YourCompany.co.il</p> <p>To: CellNumber@sms.inforu.co.il</p> <p>Subject: The message that need to be sent</p> <p>Body: ignored</p> | <p>Subject And Body</p> <p>From: Admin@YourCompany.co.il</p> <p>To: CellNumber@sms.inforu.co.il</p> <p>Subject: The message that need to be sent</p> <p>Body: The message that need to be sent</p> |
| <p>Body</p> <p>From: Admin@YourCompany.co.il</p> <p>To: CellNumber@sms.inforu.co.il</p> <p>Subject: ignored</p> <p>Body: The message that need to be sent</p> | <p>Body without HTML</p> <p>From: Admin@YourCompany.co.il</p> <p>To: CellNumber@sms.inforu.co.il</p> <p>Subject: ignored</p> <p>Body: The message that need to be sent. The message will be sent as plain text.</p> |

- Additional recipients could be added by entering their numbers in:
";CellNumber@sms.inforu.co.il" format in the "To" field.

Send to group:

From: Admin@YourCompany.co.il
To: grp#@sms.inforu.co.il
Subject: The message that need to be sent
Body: ignored

Note: In this format you can send an SMS to predefined group. In "grp#" instead of # fill the group number in your InforUMobile web account.

The "From" address is predefined in InforUMobile system. This means that only specific emails allowed sending SMS.

Format 2

From: Admin@YourCompany.co.il
To: bodygw@sms.inforu.co.il
Subject: CellNumber
Body: The message that need to be sent

Note: The Email should be plain text and not HTML.
In this format the "From" address is predefined in InforUMobile system.
This means that only specific emails allowed sending SMS.

Format 3

From: Admin@YourCompany.co.il
To: subjectgw@sms.inforu.co.il
Subject: The message that need to be sent
Body: CellNumber

Note: In this format the "From" address is predefined in InforUMobile system. This means that only specific emails allowed sending SMS.

Format 4**From:** Never mind - ignored**To:** CellNumber@sms.inforu.co.il**Subject:** The message that need to be sent**Body:** username password

Notes: The Email should be plain text and not HTML,
Username and password are supplied when opening an account.

Maximum message length per provider

Each cellular provider has its own maximum length for a message according the language of the message.

| Cellular provider | English | Hebrew |
|-------------------|---------|--------|
| Pelephone | 160 | 70 |
| Orange | 160 | 70 |
| Cellcom | 160 | 70 |
| Mirs | 140 | 70 |
